ROTH GLOBAL PLASTICS, INC.
BLOW-MOLDED TANKS

Not all tanks are created equal.
Roth’s revolutionary process changes everything.

High Tech
State-of-the-art computer controlled multi-layer blow molding process produces perfect parts. Repeatable process, repeatable field performance you can trust.

High Quality
This is not your father’s tank.
Roth tanks are the finest money can buy... and tens of thousands do!

High Time
After decades of conventional technology, Roth brings 35 years of blow molding experience to the North American market. In fact, 1 out of every 2 tanks in Europe is of blow-molded construction.
FRALO Septic Tanks by ROTH

Setting the standard for all other septic tanks, the FRALO tank by Roth offers undisputed best-in-class status and the highest brand recognition of any tank in the market.

FRALO Brand
Septic Tank Features

- First-generation blow-molded septic tank
- IAPMO and CSA certified (selected models only)
- High brand recognition

FRALO brand septic tank by ROTH Global Plastics, Inc.

WHY ROTH? WHY BLOW MOLDING?

Environmentally Sound

- 100% of scrap is recycled and reused
- The most environmentally-sound methods available
  (no air, water or solid waste discharge as a result of our process)

Less Worries

- No cracking
- No corrosion
- Watertight
- Higher life expectancy
- Strongest poly tank on the market
- HDPE — the most chemically-resistant material in the world
- True structural integrity
- Quality of tanks are above European standards

Roth Riser System STAR®

Easier Handling

- Lightweight
- Simple, user-friendly installation
- No water backfill required
- Multi-port inlet/outlet
- Versatile — suitable for septic and pump applications
- Roth offers all accessories to complete a whole system, including the popular STAR® riser systems (left)
Water shortage, mandatory water restrictions and conservation... these are serious issues that are getting discussed on a daily basis. Our contribution as a company is to develop and offer products that help deal with issues like it.

Our mission is to continuously search for better ways to produce our products and invent new products that are both efficient and environmentally friendly. We continuously invest in machinery and R&D to increase efficiency and decrease the usage of non-replenishable resources.
